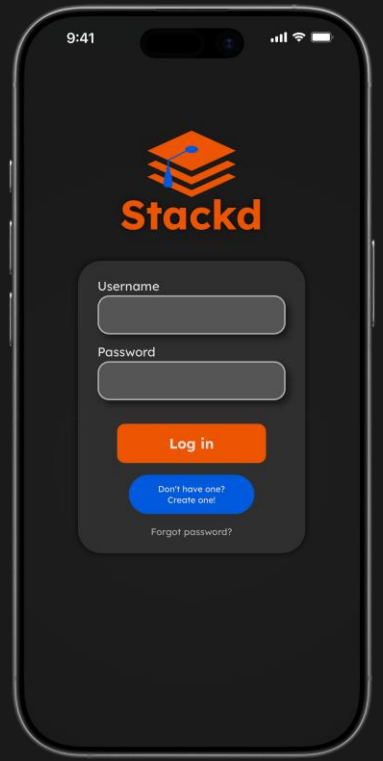
Stackd

User Manual

A walkthrough of Stackd's core features:
login, stacks, classes, studying, and settings.

1. Logging In



Username & Password

Enter your username and password in the fields provided.

Log In Button

Tap the orange 'Log In' button to sign in to your account.

Create Account

Tap 'Don't have one? Create one!' to register a new account.

Forgot Password?

Tap 'Forgot password?' to receive a password reset email.

2. Home Dashboard

Your Stacks

Shows all flashcard stacks you own or are a member of. Tap a stack to open it.

Your Classes

Shows all classes you belong to. Classes group stacks together for organization.

+ Button (Stacks)

Create a new flashcard stack.

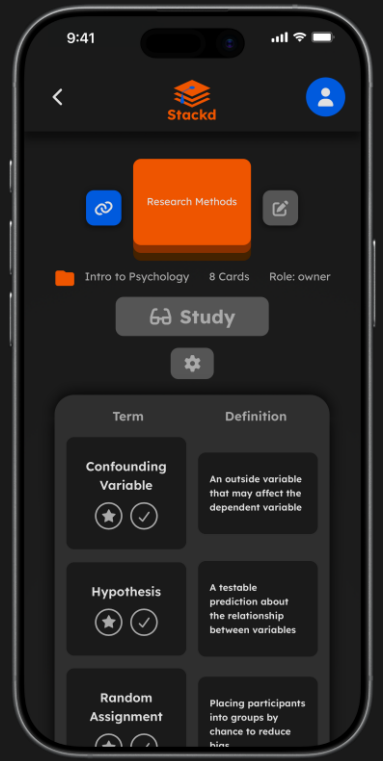
+ Button (Classes)

Create a new class to organize stacks.

Profile Icon

Tap the blue profile icon in the top-right corner to access Settings.

3. Stack View



Stack Info

Shows the stack name, which class it belongs to, card count, and your role (owner/editor/viewer).

Study Button

Tap 'Study' to enter flashcard study mode and flip through cards.

Settings

Tap the gear icon to open Stack Settings (visible based on your role).

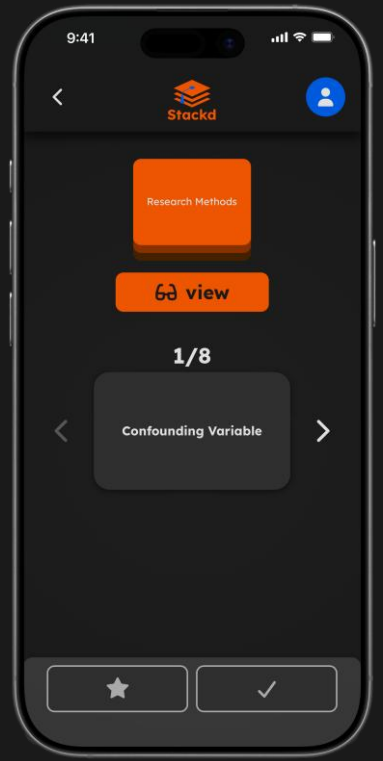
Card List

Scroll to see all Term/Definition pairs. Each card shows your study status.

Card Status Icons

★ = Review (starred), ✓ = Mastered, blank = Still Learning

4. Study Mode



Flashcard Display

Tap the card to flip it and reveal the definition. Navigate with the < > arrows.

Card Counter

Shows your progress through the deck (e.g. 2/2).

★ Star Button

Mark a card as 'Review' — you want to come back to it.

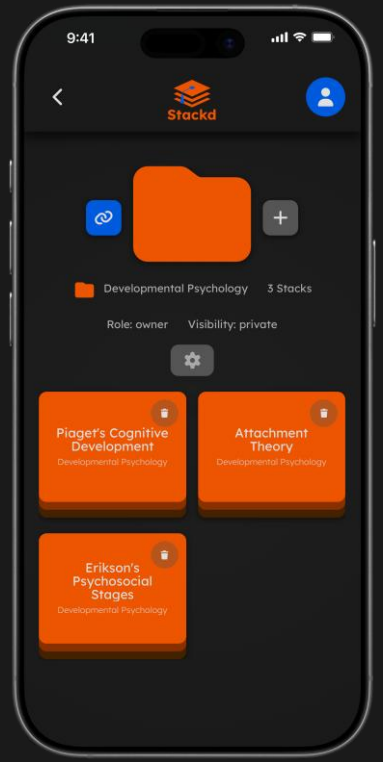
✓ Check Button

Mark a card as 'Mastered' — you know it well.

View Button

Tap 'view' to return to the full stack card list.

5. Class View



Class Info

Shows the class name, stack count, your role, and visibility (public/private).

+ Add Stack

As an owner/editor, add an existing stack to this class.

Stack Cards

Stacks in this class are shown as cards. Tap to open a stack.

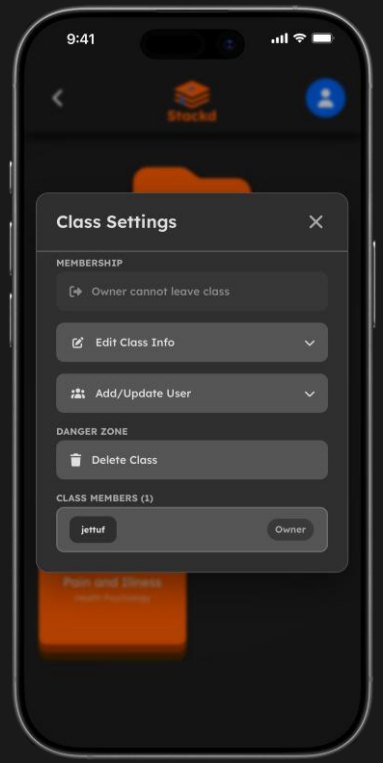
Remove Stack

Owners see a trash icon on each stack to remove it from the class.

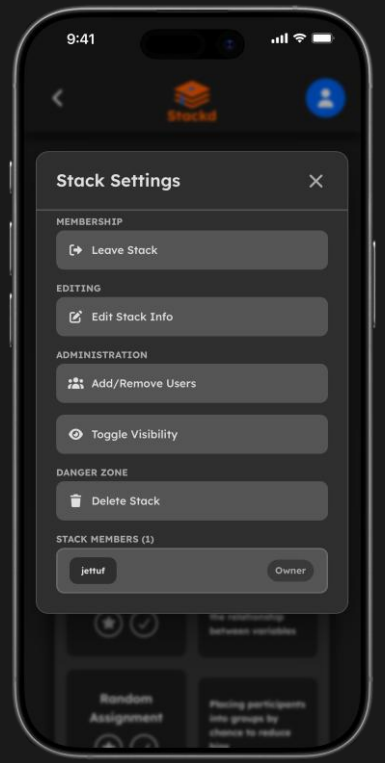
Settings

Tap the gear icon to open Class Settings.

6. Roles & Permissions



Class Settings

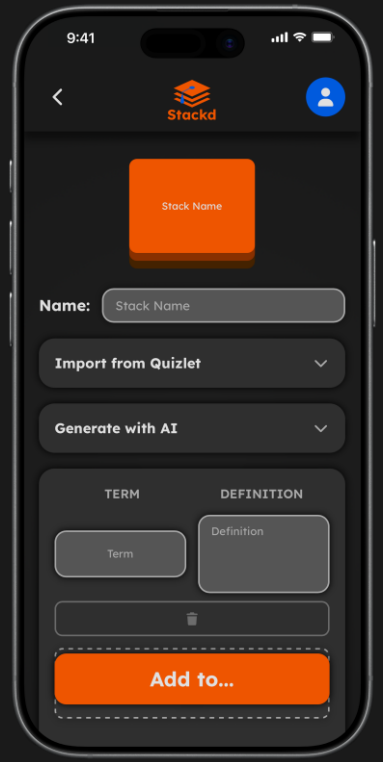


Stack Settings

Role	Can Do
No Role	Join class/stack
Viewer	View cards, study, mark cards for ‘review’ or ‘mastered’, leave class/stack
Editor	Edit stack info, add cards
Owner	All of the above + manage users, toggle visibility, delete

Roles apply per stack and per class independently.

9. Creating a Stack



Name Your Stack

Enter a name for your new stack. It appears on the stack card preview.

Import from Quizlet

Expand this section to paste a Quizlet URL and import cards automatically.

Generate with AI

Expand this section to generate flashcards on any topic using AI.

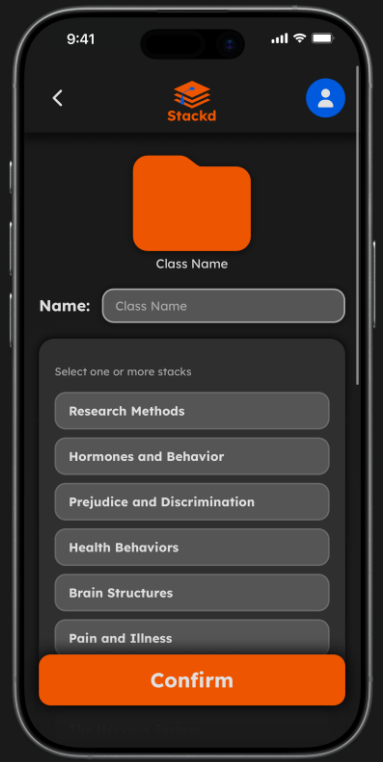
Add Cards Manually

Fill in Term and Definition fields to add cards one by one.

Add to...

Tap 'Add to...' to assign the stack to one or more classes.

10. Creating a Class



Class Name

Enter a name for the class. It appears under the folder icon on the home screen.

Select Stacks

Choose one or more of your existing stacks to include in this class.

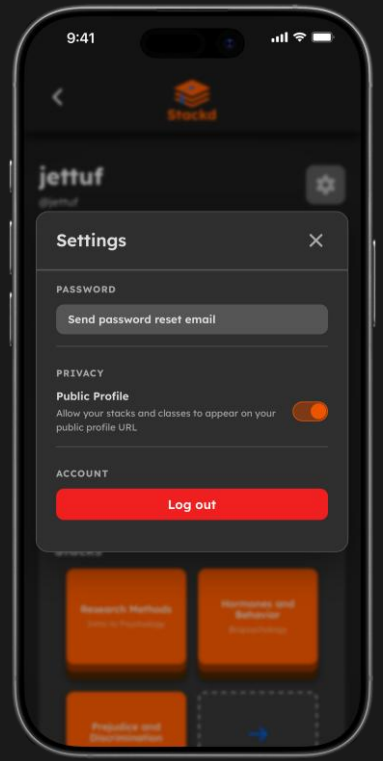
Confirm

Tap 'Confirm' to create the class with the selected stacks.

Visibility

New classes are public by default. Change visibility in Class Settings after creation.

11. User Settings



Reset Password

Tap 'Send password reset email' to receive a link to change your password.

Public Profile Toggle

When ON, your stacks and classes appear on your public profile URL.

Log Out

Tap the red 'Log out' button to sign out of your account.
